

TT Education & Rise Park Junior School

Main areas of support:

- Maths
- Writing
- Middle leadership
- Assessment & analysis
- Medium & long-term planning

“ The series of professional development sessions with Melody Lowe from TT Education (working on developing my role as subject leader) have been extremely valuable: they have enabled me to be more confident (particularly when working with colleagues in key stage 1 as I am a KS2 specialist) and more focused in my role - I have been able to prioritise tasks; give more specific feedback and set realistic targets for myself and others. ”

Alison Hayward, Maths Subject Leader
Rise Park Junior School, Havering

Situation

In February 2014, Rise Park Junior School was placed into a category of 'Special Measures' by Ofsted. Our key actions for improvement were as follows:

- Improve the quality of teaching so that it is at least good
- Accelerate pupils' progress in writing and mathematics
- Develop leadership and management at all levels

Customised solution from TT Education

The programme, which provided training and support for all levels of leadership, class teachers and teaching assistants, included consultancy days, twilights, parent workshops, demonstration lessons, Shakespeare workshops and a visit to two Centre of Excellence schools. Each session provided staff with a range of practical ideas and materials to implement within the classroom.

Improving pupil achievement

Following the positive outcomes and feedback from our initial customised solution, we are now continuing our partnership with TT Education as part of our continued drive towards improvement and outstanding practice.

They have provided high-quality, motivating CPD which all staff have invested in and been enthused by, which has had a positive impact upon the education of our pupils.

Although we have not yet had our Ofsted inspection, our internal tracking of data shows that the achievement of pupils is increasing.

	Attainment		Progress	
	Aut 1	Spr 2	Aut 1	Spr 2
Reading	69%	72%	76%	89%
Writing	60%	64%	73%	86%
Maths	72%	74%	85%	89%

* Internal school tracking data
